EDUCATION

B.S. in Computer Science Expected 2026
Lehman College — City University of New York (CUNY) Bronx, NY

EXPERIENCE

Director of IT Present
Financial Learning Group, Lehman College Bronx, NY

- Lead all technology operations for the Financial Learning Group, overseeing infrastructure, software tools, and IT support for staff and program participants.
- Manage and maintain computer lab environments, ensuring reliable access to financial education software and online platforms.
- Implement cybersecurity best practices including user access controls, data protection policies, and security awareness training.

PROJECTS

BookCon — Event Website
Web Development · CodePath

- Built a fully responsive website for a fictional annual book convention featuring an event schedule, speaker lineup, and ticket registration flow.
- Implemented clean UI/UX design from scratch using HTML, CSS, and JavaScript with a focus on accessibility and mobile responsiveness.

Ransomware Risk & Mitigation — Business Presentation
Cybersecurity · CodePath

- Produced an executive-level business presentation analyzing the modern ransomware threat landscape, financial impact, and layered mitigation strategies.
- Covered attack vectors, endpoint protection, backup strategies, and incident response playbooks tailored for non-technical stakeholders.

Netflix Viewing Behavior Analysis
Data Science

- Analyzed Netflix user viewing patterns using decision trees to classify viewing habits and linear regression to forecast watch-time trends.
- Produced visualizations identifying peak engagement windows and content preference clusters across demographic segments using Pandas and Matplotlib.

Bike Sharing Demand Forecasting
Machine Learning

- Trained a regression model on the UCI Bike Sharing dataset to predict hourly rental demand with feature engineering across weather, seasonality, and time variables.
- Evaluated model performance using RMSE and R² metrics; optimized predictive accuracy through iterative feature selection with scikit-learn.

CERTIFICATIONS

Web Development Certificate CodePath
Cybersecurity Certificate CodePath

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, HTML, CSS, SQL
Frameworks & Libraries: React, Pandas, scikit-learn, Matplotlib
Data & ML: Decision Trees, Linear Regression, Feature Engineering, Model Evaluation
Cybersecurity: Threat Modeling, Risk Assessment, Incident Response, Network Security
Tools: Git, GitHub, VS Code, Cursor, GoogleCollab
